

2nd

Advanced Course on Knee Surgery

January 21st to 25th 2008

Current concepts and trends to come:

Cartilage repair

Ligament fixations

Trauma Session: Extensor System Injuries

*TKA: improvement of pre and
per-operative planning*

Re surgery for TKA failure

Faculty

F. Almqvist (B)	F. Kelberine, (F)
P. Beaufils (F)	B. Klos (NL)
F. Benazzo (I)	D. Kohn (D)
Y. Catonné (F)	P. Landreau (F)
P. Chambat (F)	P. Lobenhoffer (D)
P. Colombet (F)	J. Menetrey (S)
D. Dejour (F)	D. Molé (F)
L. Engebretsen (N)	P. Neyret (F)
J. Espregueira Mendes (Po)	JF. Potel (F)
D. Fritschy (S)	D. Saris (NL)
C. Hulet (F)	R. Seil (L)
J. Huylebroek (B)	J. Victor (B)
R. Jakob (S)	S. Zaffagnini
B. Jakobsen (DK)	

FORMATION MÉDICALE CONTINUE

Le "2nd Advanced Course on Knee Surgery" peut être pris en charge au titre de la formation médicale continue. Il bénéficie cette année du numéro d'agrément de la CFCOT, organisme de FMC agréé sous le n° 11753509975.

Organization

François KELBERINE & Philippe LANDREAU

Under the patronage of ESSKA and SFA

VAL D'ISÈRE CONGRES
CENTRE HENRI OREILLER

Dear Friends, Dear Colleagues,

Val d'Isère, such a nice place for such a high scientific event! The international audience of the first meeting could report how it was true. This advanced course chaired by well known European experts was a great success. During one week in a warmfull atmosphere, speakers and participants have shared their knowledge as well as their arising questions about the present and the future of knee surgery. The large time allocated to discussion was especially fruitful. The format of the second course will be similar: 5 days - 5 main topics, 2 about arthroscopic surgery, 2 about arthroplasties and one focused on traumatology. It includes scientific lectures, clinical cases discussions, sessions of industry. You'll have also the opportunity to perform workshops to complement main sessions.

Looking at a glance the program and the Faculty will convince you that our target remains a high attractive level. This meeting is the place to learn about the up to date current concepts. But it is also the place to promote emerging ideas, technics or material supported by science and discussion. That's the basis for new research developpments and future trends in the knee surgery field.

We do expect this superior course will become a regular one, holding at the same date every two years, in alternance with the famous shoulder arthroscopic course from which it was inspired. Our challenge is to keep intact both the spirit and the efficiency of the first course.

Welcome in Val d'Isere for this exceptional issue.

Friendly Yours.

François Kelberine & Philippe Landreau

General information

Language: the official language of the course in English.
There shall be no simultaneous translation.

Registration: on-line registration is available for individuals on www.valdisere-congres.com

Early registration is recommended. Badges, certificate of attendance and all necessary congress documents will be given at the registration desk starting on Sunday 20th, January 2008.

Registration fees: the registration fee is 800 A including attendance to scientific sessions, workshops, abstract book and coffee breaks. The registration fee is 800 A before October 30th 2007, 900 A, After October 30th.

Social activities for accompanying persons: for any information, please contact the Convention Centre.

Catering: Breakfast will be offered during workshops in the exhibition area.
