4th Advanced Course on Knee Surgery

January 22nd – 27th 2012

For the fourth advanced course in knee surgery, we enlarged the faculty with famous US and Asian surgeons; having a glance on the faculty underlines the expected level of the meeting.

The new format was clearly attractive so we will continue with numerous and short lectures:

- Basics will be considered first and a current concept reported by an expert will start each day.
- A larger place will be dedicated to techniques with “how I do” lectures
- Video sessions (e.g re-live surgery)
- Mini-battles and controversial topics
- Interactive clinical cases
- Future trends in each field
- A take home message will conclude the sessions

As usual, a place for industry with workshops and specific sessions will be plenty included in the program.

We would like to make an attractive program focused on the daily practice for orthopaedic surgeons.

A large place for discussions will remain our special touch where lecturers, attendees and representatives of companies are able to share their knowledge about knee surgery.

Join us to the top in Val d’Isère on January 2012.

François Kelberine & Philippe Landreau
Course Co chairmen

Scientific Committee

F. KELBERINE (France)
P. LANDREAU (France)
P. NEYRET (France)
R. SEIL (Luxembourg)
J. VICTOR (Belgium)

Faculty

F. ALMQVIST (Belgium)
M. BONNIN (France)
