**Repair and fixation first**

**Partial  
Meniscectomy**

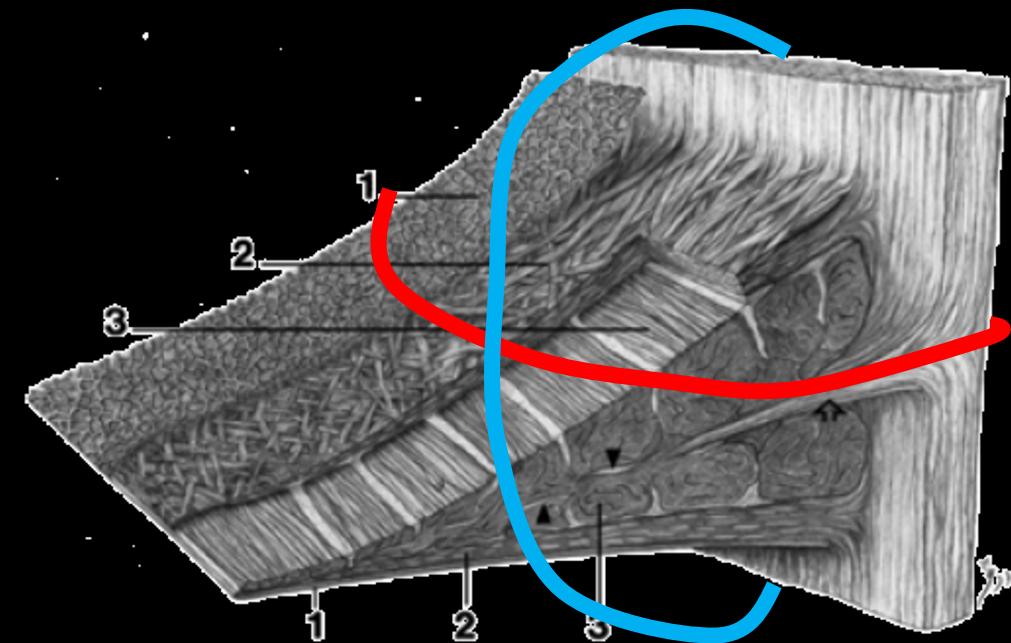

# Indication

- Medial or Lateral meniscus
- Double lesions (indications determined on a case-by-case basis)
- Discoïd Meniscus
- Horizontal cleavage
- Degenerative Root Lesion

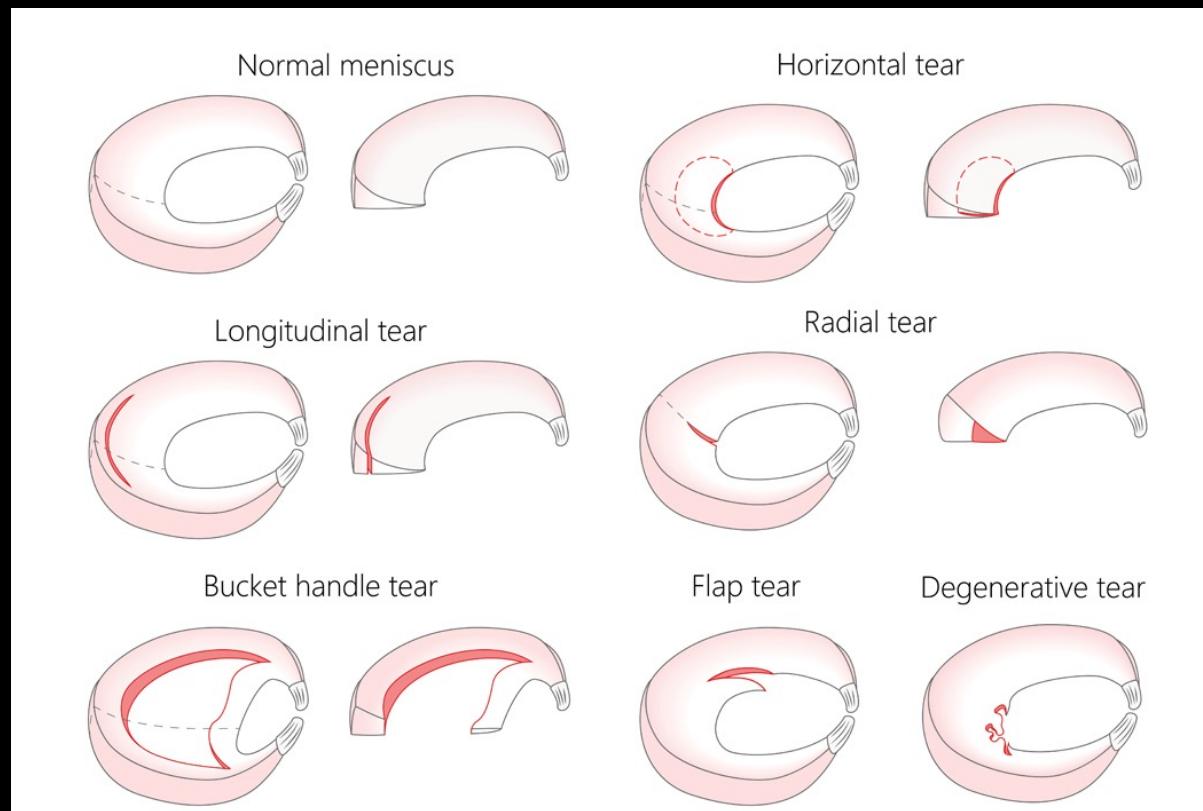

# Meniscal zone

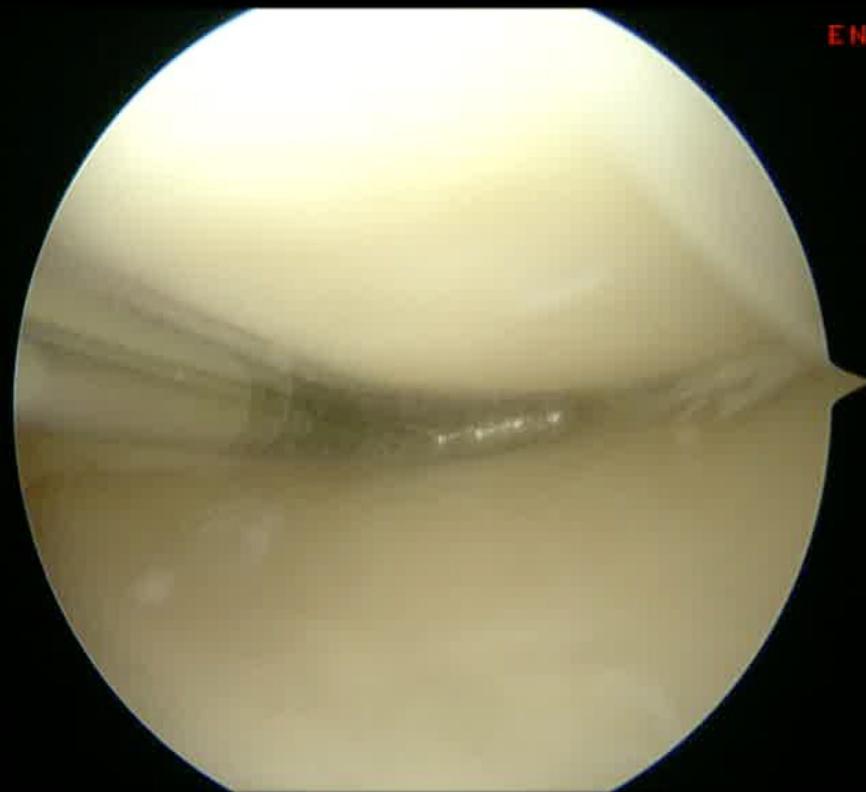

- 3 Zones
- Red/Red- Red/White- White/White

# Type of lesion

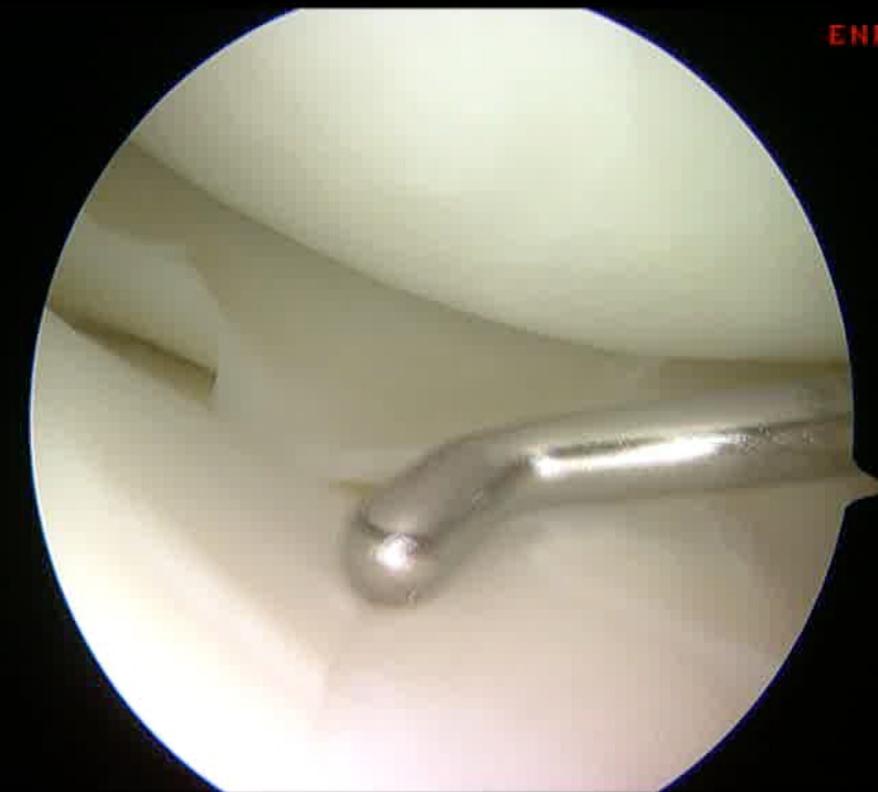

# Type of lesion

Degenerative

Traumatic

# Patient

Patient

Cartilage status

# Combined partial meniscectomy + repair

- Very common
- Better than extensive meniscectomy
- Better than repairing a « non-repairable » lesion (compromise?)
- Indications are determined on a case-by-case basis
