EDITO

Dear Friends and Colleagues,

After such a special and awfull period, we do hope this édito will find you and your relatives in good shape. We suppose that in 2022, the pandemic problem will be solved or at least stabilized in order we can renew our scientific contacts and individual exchanges.

So, we are pleased to announce the 8th Advanced Course in Knee surgery will be held in Val d'Isère from January 2022 23rd to 27th.

The program will range from basics to new developments and will provide current concepts and guidelines for your daily knee practice

For this course, the topics will be :

Indications and limits of meniscal preservation

How to choose a TKA

Posterior aspect of the knee

ACL-R with risky and difficult onset

CO-DIRECTORS

N. GRAVELEAU	
F. KELBERINE	
P. LANDREAU	
S. LUSTIG	

N. GRAVELEAU	
F.X. GUNEPIN	
M. HIRSHMAN	
F. KELBERINE	
P. LANDREAU	

FACULTY MEMBERS

A. ALBELOOSHI	
N. AMENDOLA	
J. BARTH	
R. BECKER	
F. BENAZZO	
M. BONNIN	
M. COOLICAN	
D. DEJOUR	

N. GRAVELEAU	
F.X. GUNEPIN	
M. HIRSHMAN	
F. KELBERINE	
P. LANDREAU	
S. LUSTIG

M. OLLIVIER	
N. PUJOL	
A. TROELSEN	
P. VERDONK	
M. VIOREANU	
D. WASCHER	

PF instability TKA re-surgery Osteotomies around the knee

During 5 days, speakers and participants will share their experience with a large place for discussions. Sessions will include lectures, relive-surgeries, minibattles, hot topics, how I do video sessions, case challenges.

We hope you will come again to find intact the warmfull atmosphere of this high scientific level course like the previous ones. And of course in safe and healthy conditions.

CME accreditation of this event by the UEMS EACCME® : you can get 16 CME credits !

Save the dates and come breathe in the Alps to Val d'Isere, this unique place, on January 2022, 23rd to 27th

Very Friendly Yours.

*F. Kelberine, P.Landreau, N.Graveleau & S.Lustig

SUNDAY 23RD AFTERNOON

AFTERNOON 16H - 19H

BASICS

HOW TO MAKE YOUR DECISION IN PRIMARY TKA

PS vs CR vs MS: rationale for constraint selection	A. Troelsen	8'
Fixed vs mobile	M. Hirschmann	8'
Cemented vs cementless: all in or selected indications	A. Albelooshi	8'
The role of bearing surface: wear, type of PE, potential allergy	R. Becker	8'
Patellar resurfacing or not: decision making and implant choice	D. Dejour	10'
How I do my perfect medial approach	F. Benazzo	10'
How I do my perfect lateral approach	D. Wascher	10'
My ten tips to avoid problems in primary TKA	M. Bonnin	10'
Do I have to test many TKA?	S. Lustig	8'

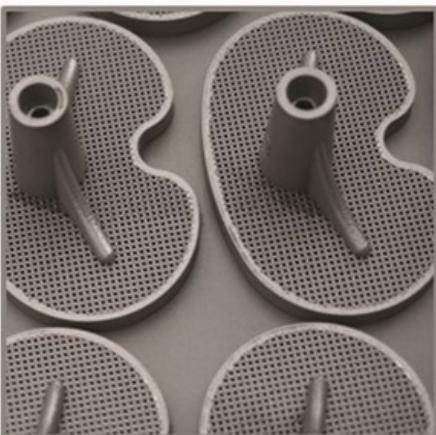

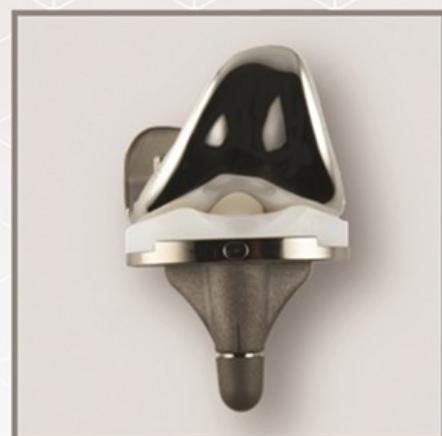

INDICATIONS AND LIMITS OF MENISCAL PRESERVATION

Rationale: anatomy and biomechanics, classification	N. Pujol	8'
Debate:	P. Verdonk, F. Kelberine	16'
- Which meniscal lesions must be repaired and which lesions should not		
- Is meniscectomy still valid?		
Techniques of repair :		
- All Inside	F. Benazzo	5'
- Inside-Out	D. Dejour	5'
- Outside-In	M. Ollivier	5'
Biologic augmentation?	J-C. Monllau	8'
Complications of menisci repair	F-X. Gunepin	10'
Take home message: Algorithm	P. Landreau	5'

Val d'Isère

**MONDAY 24TH****MORNING 8H30 - 11H****TKA RE-SURGERY****PERIPROSTHETIC INFECTION**

Diagnosis: Biology, Imaging	R. Becker	10'
Surgical management for acute case	F. Benazzo	10'
Debate in chronic infection: 1 or 2 stages	A. Troelsen	12'
Salvage procedure and limits	A. Albelooshi	10'
Algorithm Philadelphia (Infection recommendations)	S. Lustig	8'

STIFFNESS

Why is it stiff? Mechanical or biological	D. Washer	10'
Diagnosis	D. Dejour	8'
Management:		
- Hot topic: MUA vs Arthroscopic arthrolysis	J.C. Monllau	12'
- My 10 key steps for implant revision for a stiff TKA	M. Bonnin	10'
- Extreme case: open arthrolysis	P. Verdonk	10'

AFTERNOON 16H - 19H**PAINFUL**

TKA Algorithm	M. Hirschmann	12'
---------------	---------------	-----

UNSTABLE

How to assess it?	N. Gravaleau	8'
PE exchange and soft tissue procedure: still an option?	F. Kelberine	8'
Debate: revision CCK vs rotating hinge	S. Lustig, A. Troelsen	16'
Hot topic: Chronic extensor mechanism deficiency	M. Bonnin	10'

LOOSE TKA

Bone loss strategy: augment or bone graft?	A. Troelsen	10'
The concept of zonal fixation	A. Albelooshi	8'
Cones vs sleeve: what's in a name?	M. Hirschmann	8'
Rationale for short vs long stem	M. Coolican	10'

CLINICAL CASES

S. Lustig 25'

SURGICAL TIPS AND TRICKS FOR RE-TKA

Approach for a good exposure	N. Pujol	8'
Implant/cement removal	F. Benazzo	8'
Don't forget the joint line!!	M. Bonnin	8'
How to avoid malrotation	P. Verdonk	8'
How to get the cementation right	M. Vioreanu	8'

Tuesday 25th

TUESDAY 25TH

MORNING 8H30 - 11H

ACL-R WITH RISKY AND DIFFICULT ONSET

HOW TO DEAL WITH HYPERLAXITY

Constitutional hyperlaxity, collagen diseases	N. Gravleau	8'
How to deal with a recurvatum (symmetric or asymmetric)?	N. Amendola	8'
Special case: young population (children, adolescent)	N. Gravleau	10'

HOW TO ADAPT TO CHRONIC INSTABILITY:

How to address "Gross" laxity and associated lesions	J. Barth	8'
Best graft for big laxity	D. Wascher	8'
Do we need to address chronic meniscal deficiency to control laxity?	P. Verdonk	10'
ACL rupture with early stage arthritis.	M. Hirschman	10'

SPECIFIC SITUATIONS

Stiff knees	F. Kelberine	8'
Previous infected knee	M. Ollivier	8'
Elderly patients (> 50 y.o.)	J-C. Monllau	8'
Are small or very big knees more complicated?	M. Ollivier	8'
Obese patients	M. Vioreanu	8'
ACL-R in difficult economic conditions	F-X. Gunepin	8'

SPORT RELATED ASPECTS

Which graft for which sport?	P. Landreau	10'
Required high joint mobility	R. Becker	8'
Specificity of ACL reconstruction in women	N. Gravleau	8'

AFTERNOON 16H - 18H

CLINICAL CASES (e.g : soccer, ski, hand)	J. Barth	25'
DEBATE: Prevention after ACL-R (RTS, Age, delay)	N. Amendola, N. Pujol	16'

POSTERIOR SIDE OF THE KNEE (I)

SURGICAL AND ARTHROSCOPIC ANATOMY OF THE POSTERIOR AREA	M. Vioreanu	15'
POSTERIOR KNEE PAIN? DIAGNOSIS , CLINICAL ASSESSMENT, IMAGING	R. Becker	15'
SURGICAL APPROACHES	N. Gravleau	12'
POSTERIOR ARTHROSCOPIC PORTALS	M. Ollivier	8'
POSTERIOR MENISCAL PATHOLOGY		
Posterior roots and ramp lesions	P. Landreau	10'
Tears around the popliteus tendon	P. Verdonk	8'

8th Advanced Course
on Knee Surgery

January 23rd-27th, 2022 Val d'Isère - France

WEDNESDAY 26TH

MORNING 8H30 - 11H

POSTERIOR SIDE OF THE KNEE (II)

LIGAMENT PATHOLOGIES

PCL avulsion (How I do)	J-C. Monllau	8'
Tibial tunnel in PCL reconstruction (How I do)	N. Gravleau	5'
Posterolateral lesions repair and reconstruction: open and arthroscopic	N. Amendola	12'
Posteromedial complex repair and reconstruction	R. Becker	12'

POSTERIOR SYNOVECTOMY AND CAPSULAR RELEASE

M. Coolican 10'

TENDON PATHOLOGY: HAMSTRINGS, GASTROCNEMIUS, POPLITEUS

J. Barth 8'

POPLITEAL ARTERY ENTRAPMENT SYNDROME

A. Troelsen 5'

HOT TOPIC: HOW TO MANAGE NERVE OR VASCULAR OPERATIVE COMPLICATION

F-X. Gunepin 10'

DOES FABELLA PATHOLOGY EXIST?

P. Landreau 5'

PF INSTABILITY

ANATOMY AND KINEMATICS

J. Barth 10'

Bone and soft tissue stabilizers

Classification clinical symptoms

IMAGING: ARTHRO CT SCAN VS ARTHRO MRI

P. Landreau 10'

FIRST TIME DISLOCATON

N. Pujol 15'

Epidemiology, assessment, initial treatment

MPFL repair for primary dislocation

Place of arthroscopy (MPFL repair, loose body)

MPFL RECONSTRUCTIONS SO MANY TECHNIQUES!

Isometry? Rationale? Double bundle?

D. Dejour 10'

How I do (2) Video

J-C. Monllau, 10'

Complications of MPFL reconstruction

F. Kelberine 12'

THROCLEOPLASTY

Different techniques, indications, risks, results

N. Pujol 8'

How I do a trochleoplasty (video)

N. Pujol 5'

AFTERNOON 16H - 18H

INDICATION FOR TIBIAL TUBERCLE TRANSFER

J. Barth 12'

Distal, medial

TTT How I do

PATELLAR TENDON TENODESIS FOR PATELLA ALTA

S. Lustig 10'

SPECIAL CASE: IS HUGE OSTEOTOMY NEEDED?

P. Verdonk 8'

8th Advanced Course
on Knee SurgeryJanuary 23rd -27th, 2022 Val d'Isère - France

**HOW I DEAL WITH CARTILAGE OR OSTEOCHONDRAL DEFECTS (ACUTE/ CHRONIC)**

P. Landreau

12'

Treatment options

PLACE OF SURGERY FOR FUNCTIONAL INSTABILITY (AKP) AFTER FAILED CONSERVATIVE TREATMENT?

F. Kelberine, N. Amendola 16'

Debate (Arthroscopic Lateral release)

SPECIAL: PATELLAR INSTABILITY IN TKA

TKA malposition (Is ER useful at implantation?)

M. Vioreanu 10'

Medial lack: treatment options

M. Coolican 10'

MINI BATTLE: DO WE HAVE TO CORRECT EVERYTHING OR MAKE IT SIMPLE?

D. Wascher, D. Dejour 20'

CLINICAL CASES (INCLUDING CHILDREN)

N. Graveleau 30'

THURSDAY 27TH MORNING**MORNING 8H30 - 12H****OSTEOTOMIES AROUND THE KNEE****AGE, TYPE AND LOCATION OF DEFORMITY, ASSOCIATED PROCEDURES.**

Planning (X-rays, CT scan)

M. Vioreanu 10'

Hyper or normo correction?

M. Coolican 10'

HOT TOPICS

Managing instability with osteotomies in both plans

P. Landreau 10'

Intra articular for malunion

M. Hirschman 10'

Huge deformity (curve or double)

M. Ollivier 10'

HOW I DO

HTO CW

F. Kelberine 8'

HTO OW

on Knee Surgery**January 23rd -27rd, 2022 Val d'Isère - France

Gamme Hanche

Les implants de la gamme hanche sont des DM de Classe III, fabriqués par United Orthopedic sous les numéros de marquage CE 2797 (BSI Pays-Bas) et CE 2195 (SZUTEST).

Ils sont indiqués dans les arthroplasties de hanche de première intention. Veuillez lire attentivement les instructions figurant dans les notices d'utilisation de chacun des implants.

Ces dispositifs sont remboursés par les organismes d'assurance maladie sous certaines conditions, veillez consulter les modalités sur le site ameli.fr.
