

January 24th to 28th 2027

Scientific committee:

N. Graveleau (France)
F. Kelberine (France)
P. Landreau (UAE)
S. Lustig (France)

Faculty:

A. Al Belooshi (UAE)
C. Batailler (France)
F. Benazzo (Italy)
N. Bouguennec (France)
N. Budhiparama (Indonesia)
J. Chahla (USA)
M. Clatworthy (New Zealand)
G. Demey (France)
V. De Padua (Brazil)
F-X. Gunepin (France)
M. Hantes (Greece)
T. Neri (France)
M. Ollivier (France)
S. Oussedik (UK)
S. Parratte (UAE)
J-M. Philippeau (France)
P. Verdonk (Belgium)
A. Troelsen (Denmark)

Location:

Centre des Congrès Henri Oreiller, Val d'Isère, France

SUNDAY 24th AFTERNOON

AFTERNOON 16h30 -19h30

BASICS

WHAT IS AMI?

Classification and diagnosis
Prevention
Treatment

N. Bouguennec 10'
S. Parratte 10'
T. Neri 10'

Discussion

10'

INFLUENCING FACTORS TO CHOOSE KNEE ARTHROPLASTY

S. Lustig 15'

THE ROLE OF SURGICAL DRAWING TO TRANSMIT KNOWLEDGE

P. Landreau 15'

Discussion

10'

17h50 – 18h10 Coffee break

20'

HOW TO PREVENT STIFFNESS IN KNEE SURGERY?

ACL reconstruction
Knee arthroplasty
Traumatology

M. Clatworthy 10'
A. Troelsen 10'
F-X. Gunepin 10'

Discussion

10'

HOW TO PREVENT INFECTION?

ACL reconstruction
Knee arthroplasty
Traumatology

J. Chahla 10'
N. Budhiparama 10'
M. Ollivier 10'

Discussion

10'

MONDAY 25th

MORNING 8h00 – 11h00

MENISCUS

Meniscus repair: failures management & healing enhancement
EBM in rehabilitation protocols after meniscus repair
How to prevent / reduce meniscal extrusion?
Associated grade 3&4 focal lesion in meniscal repair:
What to do / what to say?

J. Chahla 10'
M. Hantes 10'
P. Verdonk 10'

F-X. Gunepin 10'

Discussion 10'

Displaced type 1 ramp lesion (medial meniscus)
Medial root tear

P. Landreau 10'
N. Graveleau 10'

Discussion 10'

09h20 - 09h40 Coffee break

20'

Bucket handle tear (medial meniscus)
Horizontal medial tear in middle aged patient (medial meniscus)
Unstable lateral meniscus involving the hiatus / hypermobility
Lateral discoid meniscus
Radial meniscus tear (lateral meniscus)
Retracted lateral root tear

J-M. Philippeau 10'
F-X. Gunepin 10'
M. Hantes 10'
P. Verdonk 10'
N. Budhiparama 10'
P. Verdonk 10'

Discussion 10'

MONDAY 25th

AFTERNOON 16h30 – 19h30

FRACTURES IN TKA & UKA (before, during and after)

UKA

Rationale & literature
Tips & tricks (case based)

A. Troelsen 8'
S. Lustig 10'

PRIMARY TKA IN ACUTE DISTAL FEMORAL FRACTURES

Rationale & literature
Tips & tricks (case based)

S. Parratte 8'
F. Benazzo 10'

PRIMARY TKA IN ACUTE PROXIMAL TIBIAL FRACTURES

Rationale & literature
Tips & tricks (case based)

N. Budhiparama 8'
T. Neri 10'

Discussion

10'

17h30 – 17h50 Coffee break

20'

PEROPERATIVE PERIPROSTHETIC FRACTURES

Femur osteosynthesis (rationale, tips & tricks, rehabilitation)
Change to revision femoral implant
Tibial osteosynthesis (rationale, tips & tricks, rehabilitation)
Change to revision tibial implant

J-M. Philippeau 10'
A. Al Belooshi 10'
F. Benazzo 10'
S. Oussedik 10'

Discussion

10'

SECONDARY PERIPROSTHETIC FRACTURES

Femur osteosynthesis (rationale, tips & tricks, rehabilitation)
Change to revision femoral implant
Tibial osteosynthesis (rationale, tips & tricks, rehabilitation)
Change to revision tibial implant

C. Batailler 8'
A. Troelsen 10'
F-X. Gunepin 8'
M. Clatworthy 10'

Discussion

10'

TUESDAY 26th

MORNING 8h00 – 11h40

DIFFICULT PRIMARY KNEE ARTHROPLASTY (I)

SPECIAL FOCUS ON PATELLA

Major wear	F. Kelberine 10'
Patella baja	A. Al Belooshi 10'
Patella alta	S. Parratte 10'
Extensor mechanism dysfunction	C. Batailler 10'

Discussion 10'

Preop malalignment/maltracking	S. Oussedik 10'
Permanent patella dislocation	S. Lustig 10'
Minibattle resurfacing or not	A. Troelsen & S. Oussedik 15'

Cases / Discussion **J-M. Philippeau & A. Al Belooshi 15'**

09h40 – 10h00 Coffee break 20'

PREVIOUS SURGERY

Hardware removal (1 or 2 stages)	J-M. Philippeau 10'
Post ACL	G. Demey 10'
Previous fracture malunion	F. Benazzo 10'
Previous fracture nonunion	M. Clatworthy 10'

Discussion 10'

HTO	C. Batailler 10'
DFO	P. Verdonk 10'
Tibial tubercle transfer	A. Al Belooshi 10'
Patellectomy	S. Oussedik 10'

Discussion 10'

TUESDAY 26th

AFTERNOON 16h30 - 19h00

EXTENSOR MECHANISM AND PF

FP primary arthritis in young patients
Patellar lateral facetectomy
Quadriceps tendon repair: how to succeed
Patellar tendon rupture: augmentation?
Treatment algorithm for jumper's knee

N. Budhiparama 10'
S. Lustig 10'
M. Hantes 10'
N. Graveleau 10'
J. Chahla 10'

Discussion

10'

17h30 - 17h50 Coffee break

20'

Treatment of PF instability with significant cartilage damages
Femoral rotational osteotomy in PF instability
Tibial tubercle medialization in PF instability
Trochleoplasty in PF instability

N. Bouguennec 10'
M. Ollivier 10'
C. Batailler 10'
G. Demey 10'

Discussion / PF complex clinical cases

P. Verdonk & G. Demey 30'

WEDNESDAY 27nd

MORNING 8h00 - 11h00

DIFFICULTY PRIMARY KNEE ARTHROPLASTY (II)

RISKY CASES

Stiff knee lack of extension **S. Lustig 10'**
Stiff knee lack of flexion **A. Al Belooshi 10'**
Skin multiple scars (previous approaches, flaps, coverage) **F. Benazzo 10'**

Discussion **10'**

Previous infection **A. Troelsen 10'**
Poor bone quality and/or congenital disease **S. Parratte 10'**

Discussion **10'**

09h10 - 09h30 Coffee break **20'**

DIFFICULT CLINICAL CASES

How to deal with poor bone quality **S. Parratte 10'**
(bone grafting, stem, modified implant cone augments, ...)
Hyperlaxity **J-M. Philippeau 10'**
Severe varus deformity **N. Budhiparama 10'**
Severe valgus deformity **F. Kelberine 10'**
When to stop! Salvage procedures (cement, arthrodesis, floating knee) **C. Batailler 10'**

Discussion **10'**
(including participant cases) **S. Oussedik & F. Benazzo 30'**

WEDNESDAY 27nd

AFTERNOON 16h30 – 19h30

POSTEROMEDIAL AND LATERAL CORNERS

Imaging for PMC/PLC injuries	N. Graveleau 10'
High grade chronic isolated MCL in athletes	J. Chahla 10'
Anatomy and biomechanics of PMC: is POL still the key?	N. Bouguennec 10'
Technique for PMC reconstruction: option 1	V. de Padua 10'
Technique for PMC reconstruction: option 2	G. Demey 10'
Technique for PMC reconstruction: option 3	J. Chahla 10'
Place of osteotomy in chronic medial laxity	N. Graveleau 10'

Discussion 10'

17h40 – 18h00 Coffee break 20'

Anatomy & biomechanics of PLC: is popliteo-fibular ligament the key?	T. Neri 10'
Technique for PLC reconstruction: option 1	P. Landreau 10'
Technique for PLC reconstruction: option 2	M. Ollivier 10'
Technique for PLC reconstruction: option 3	F-X. Gunepin 10'
Severe nerve injury in PLC	T. Neri 10'
Place of osteotomy in PLC chronic injury	M. Ollivier 10'

Discussion about complex PMC/PLC cases
M. Clatworthy, N. Bouguennec & M. Hantes 10'

THURSDAY 28th

MORNING 09h00 – 12h00

ACL RECONSTRUCTION

Pediatric (open growth physes) ACL reconstruction Which technique(s) according to the growth age?	N. Graveleau 10'
How to deal with acute cartilage lesion > 2cm ² during ACLR?	M. Clatworthy 10'
How to minimize grafts harvest morbidity?	M. Hantes 10'
Post ACLR stiffness: algorithm (flexion, extension, global)	V. De Padua 10'
Persistent instability with previous ACL graft in place	T. Neri 10'
Combined osteotomy and ACLR	M. Ollivier 10'

Discussion 10'

10h10 – 10h30 Coffee break 20'

Treatment of instability in young arthritic knee	F. Kelberine 10'
2-stage ACL revision: remaining indications?	P. Landreau 10'
Lateral tibial plateau fractures / condylar impaction in ACL rupture	G. Demey 10'
Decision making for ACLR: AI vs expert	N. Bouguennec 10'

Discussion about complex ACL cases **V. De Padua & P. Landreau 30'**
